

Energy Conservation Policy

Controlled Document – refer to Intranet for latest version

Category: General Administration	Date Created: September 2012
Responsibility: Director Facilities Management	Date Last Reviewed:
Approval: Chief Financial Officer	Version: 12.1

Purpose

To ensure UCOL staff, students and contractors actively conserve / reduce energy consumption, without compromise to core activities of teaching and learning, across all UCOL Campuses.

Scope

This is an institutional wide policy.

Responsibility

The Chief Financial Officer is responsible for the promotion of this policy, and has delegated authority to the Director Facilities Management for the pro-active management and monitoring of the effectiveness of this policy.

Policy Statements

UCOL aims to be a more efficient user of Energy through research, pro-active management techniques, procurement, staff training and maintenance projects to help conserve the environment through the efficient use of energy.
